

WEDNESDAY EVENING, OCT. 24, 1860

H. G. HAMMERL, J. R. MCOSIER,  
HAMMERL & MOSSER, Proprietors.  
Decatur, Illinois.Entered at the Post Office at Decatur, Illinois,  
as second class mail matter.

The Review "sings small" on the reunion question this morning. Is it out of material to keep up the racket, or have the high and mighty bosses of the party called a halt?

Mr. BURCHARD, Director of the Mint, reports the amount of silver in the United States treasury at \$114,000,000, of which \$70,000,000 are held as deposit against corresponding amount of silver certificates, and \$35,000,000 is held in the vaults for disbursement.

WASHINGTON Treasury is growing rapidly in wealth as well as in population. The property valuations of the taxable property of the Territory for 1853 amount to a total of \$4,107,507, being a gain of \$11,538,666 over 1852—about 35 per cent. The valuation is now substantially three times greater than it was five years ago, and 80 per cent. greater than it was two years ago.

The opinions of the Review on all public questions are pretty well understood, even in opposition to their antagonist, and in opposition to "Our Dick." The trouble with "Dick" is he is too honest for the leaders of his party and he will probably find himself sold out when it comes to the work of the state convention.

"Our Dick" finds out the opinion of the Review on his political sagacity and statesmanship he will at once retire to the shades of private life, and pass the remainder of his days in kicking himself for ever having had the impudence to aspire to place and position.

HON. CHARLES P. SWANSON, auditor of the state of Illinois, has certified the following rates of state taxation for extension against the equalized assessment of all property for the year 1853, the tax for general state purposes will be 2 mills on each dollar, or 20 cents on each \$100; for school purpose 1.2 mills on each dollar, or 12 cents on each \$100, aggregating 3.2 mills or 32 cents on each \$100 valuation of taxable property. The amount required for general state purposes for 1853 is \$2,400,000.

The American hog did not do the mischief this time, for the reason, perhaps, that Prince Bonaparte has too tight a grip upon the animal's ear. One hundred and eighty persons in Saxony, Germany, are suffering from trichinosis, and fifty or more of them are either dead or dying. While searching for trichinae in the American hog with their microscopes, the German Professors have neglected the home product. The number afflicted is greater than the entire number of cases ever known in America. This comes of excluding the American hog products from that country.

Two Republicans still insist that we shall not withdraw the views of our correspondence. We would have a pretty broad crowd if we did, for the Review offers its column to those of all creeds and shades of opinion.

Yes' so. But when the question is asked whether you endorse my certain specified correspondent's views, it would take a good deal less time to say yes or no than has been spent in all this palaver. We cannot understand why a great leader in the political party that is pledged to "economy and reform" should be so prodigal in the use of time. Come, now, neighbor, tell us whether you really believe, with your correspondent, that rebel prisoners in the north were treated with the same refinement of cruelty which marked the hospitality of that eminent Confederate, Henry Wirz, towards the guests under his charge at Andersonville. If you'll only tell us that you do not agree with that part of your correspondent's letter we will make all necessary apologies for having wasted so much valuable time in trying to find out.

FREDIE GRAMMER has found an imitator in a young Californian with more money than brains, who has started west from New York, with a prominent opera singer of a foreign troupe. The use to which inherited fortunes are so often put proves to thinking men that there is something better to endow sons with than money. It is in the form of education, industrious habits and "horse sense."

A female teacher of San Francisco is being investigated for "giving" little girls of tender age, after the style that prevails in the British navy. She is charged with having promenaded one little sufferer thro' various rooms filled with scholars, exclaiming: "See what a nice little doggy I have caught. She won't bite." The child's lips, it is claimed, were blisters, and her nose cut by the strap that held the bamboo gag. The "lady" has "long been considered one of the kindest teachers in the department," etc., and a whitewashing is probable. She ought to be sent to convert the heathens.

SHAWNEE, ILLINOIS, Sept. 24.—At present there is no place where the Review can be had. So we will print it here, and you may buy it for 10 cents, whether you wish to buy or not.

Big 18

## CRIMES AND CASUALTIES.

## The Congressional Pillmaker's Laboratory Goes Up in Flames.

A Day's Dismal Record—Suspension of Pension Sharks—The Last of the Mohegan Gould's Poverty—Another Serious Railroad Accident—Strike Ended—Surplus Wealth—Released by a Indignant Mob.

SALE OF LOT 14, Oct. 24.—At 11 o'clock last night an explosion from box 117 called the engines to the Biddle street and Broadway, where it was evident at a glance that the fire department had hard work before it. Flames were already leaping from the upper stories of the huge building formerly known as the Gildard House, on the southwest corner of the streets named, and lately transformed by Dr. McLean into a laboratory and warehouse for the manufacture and shipment of his medicines. The fire spread very rapidly and by 11 o'clock the entire building was in flames.

It was so apparent that the McLean building could not be saved that the firemen did not make much effort in that direction, but devoted themselves to the task of saving the remainder of the block if possible. The flames soon burst through the roof of the manufacturing and a broad sheet of fire a hundred feet in height illuminated all the central part of the city, and the smoke gave forth a glorious light in the dark. A general fire alarm was sounded, and additional strength was soon on the water upon the building to the south of the one burning, to which the danger was becoming more and more imminent constantly as gusts of wind carried showers of sparks and flaming embers upon the roofs. The fire was not long before the McLean building presented the appearance of little more than four huge logs with a great bed of coals inside, so completely was the combustible material of the concern eaten away by the flames.

THE BURNING OF THE TOWER.—The curious feature of the scene was the burning of the tall tower upon the building, which without the tremulous heat about it well, and was probably unoccupied for some time after the ignition of the drier had disappeared. The tower, intended by Dr. McLean to advertise his business while at the same time serving another useful purpose, was designed in the form of an iron pipe bottle containing the sides of which were the glass of a window, the top of which was inside a block of wood, and the bottom was surrounded by a large bed of coals. Inside, so far as we could see, was the combustible material of the concern, eaten away by the flames.

RELEASING FROM JAIL BY A MOB.—NASHVILLE, Tenn., Oct. 24.—Inquiry at the Treasury department has developed the fact that the man in the treasury yesterday the extraordinary cash reserve of \$162,000. There appears to be no doubt that another call of 3 per cent. bonds will be issued before long. All but \$7,000,000 of the \$82,000,000 of the 3 per cent. bonds embraced in the 12th call have been redeemed, although the call does not mature before Nov. 1, and it is probable the \$7,000,000 will be paid before the day of maturity.

THE RELEASING OF THE TREASURY.—The Secretary of the Treasury has remarked that the safety of the nation depends upon the payment of the debts of the country.

RELEASING FROM JAIL BY A MOB.—WASHINGTON, Oct. 24.—Upon the recommendation of the Commissioner of Pensions, the Secretary of the Interior has ordered the suspension of the following named pension attorneys: J. R. Cliffe, Rockwood, Md.; Francis Register, Philadelphia, Pa.; Wm. H. Drane, Philadelphia; M. B. Stevens & Co., of Cleveland, Washington, Detroit and Chicago; Wm. H. Wilts & Co., Washington, and James H. Russell & Co., Trenton, N. J. The Commissioner recommended that some of the above named persons be discharged. Suspension, however, is preliminary to discharge if the charges are proven. The recommendation of Commissioner Drury for the suspension or discharge are based upon a general charge of improper practice before the pension office.

RELEASING FROM JAIL BY A MOB.—NEW YORK, Oct. 24.—Mr. Matthew Arnold, the English writer, arrived here Monday on the steamer Surya of the Cunard Line. Upon the arrival of the steamer at quarantine in the morning, Mr. Arnold, who is accompanied by his wife and daughter, was met by Mr. Andrew Carnegie and a party of friends who had gone out to welcome him. As the Surya slowly crept up the bay Mr. Arnold, who now makes his first visit to this country, took a critical survey of the shores extending on either side of him. As the sun rose over the Hudson River, the Long Island shore, Mr. Arnold was pathetically struck with the beauty of the scene.

"What a beautiful shot!" he exclaimed, admiringly. "But," he added a moment later, with a humorous twinkle-in-the-eye, "I don't see a single Mohican on shore."

CITIZENS' ANSWER.—JEROME CITY, Oct. 24.—Gov. Crittenden is now engaged in preparing his reply to the resolutions introduced to him by the Citizens' Committee. As far as your correspondent can ascertain, it will be a dignified and dispassionate presentation of his views, without censure or reflection on any one connected with the citizens' meeting, and that any expression that may have been given out in St. Louis is coming from him or any of his friends for him, different from those intimated above, we feel safe in saying, unauthorized, unjustifiable and untrue. There will be no appointments made to-day for Police Commissioners, etc. Cleveland, resigned.

NOT AFFORD TO BE JUST.—GALVESTON, Texas, Oct. 21.—The News-Austin, Texas special says: "Vice-President Hoxie, of the International railroad, has written to Governor Ireland that business will not justify the running of separate coaches to accommodate the negroes, whom the recent civil rights decision precluded. He says, 'We can now make colored men take the seats we desire.' The Governor replied, 'We do not entirely involve the peace of society and law in this case, and we are not bound to do so.'

He sincerely regrets that the road will not do what seems reasonable, and what the black lines in Texas have done."

STRIKE ENDED.—DALLAS, Oct. 24.—The switchmen's strike in the yards of the Gould line at this place ended Monday night. The old force was not taken back, nor was the \$5 per month increase of wages allowed; but the force to do the work was largely increased, extra help being engaged, and new hired, which greatly relieved the labor of the men. The fight blockade is gradually being overcome, and will be fully satisfied in a week or ten days.

AT PRORIA, ILL.—Oct. 24.—A grain elevator owned by the Balance estate, burned down last night with 45,000 bushels of grain. The origin of the fire is unknown. The building was valued at \$10,000 and the grain at \$13,000. There was \$3,000 insurance on the building. The grain was fully insured.

AT PRORIA, ILL.—Oct. 24.—A grain elevator owned by the Balance estate, was being built upon the opposite side of the river with several passengers across his body, while over them was piled debris of broken seats and smashed windows. The shrieks and groans of the wounded filled the air, and for several moments there was the utmost confusion.

AT OCEANSIDE, CONNECTICUT.—Oct. 21.—The manufactory of soap, tallow, candles, etc., met with a terrible accident at Oceanside, twenty miles distant from the place, the tea car jumping the track and running into a ditch by the roadside. Some of the passengers were killed outright, but W. D. Whitehead, Dr. J. C. Walker and C. Mayo of Indianapolis; C. H. Williams, Covington, Pa.; Albert Greenway, St. Louis; F. L. Friedman, Cincinnati, and E. C. Williams of Illinois were severely injured. The two last named dangerously. The other passengers, the couch were torn and battered, and so much so that they passed out on the floor. Mr. Whitehead was reduced to his home and was last night lying in a critical condition. His injuries are principally internal and one rib is fractured.

DR. WALKER'S INJURIES.—Dr. Walker's injuries are also internal and sufficiently grave to cause his friends great anxiety. He gives a graphic description of the work. The train was running so rapidly when it met that the front end of the car had hit the rail. A second later it toppled over upon its side and he felt himself torn from his seat. When he recovered consciousness he was lying upon the opposite side of the aisle with several passengers across his body, while over them was piled debris of broken seats and smashed windows. The shrieks and groans of the wounded filled the air, and for several moments there was the utmost confusion.

AT OCEANSIDE, CONNECTICUT.—Oct. 21.—The manufactory of soap, tallow, candles, etc., met with a terrible accident at Oceanside, twenty miles distant from the place, the tea car jumping the track and running into a ditch by the roadside. Some of the passengers were killed outright, but W. D. Whitehead, Dr. J. C. Walker and C. Mayo of Indianapolis; C. H. Williams, Covington, Pa.; Albert Greenway, St. Louis; F. L. Friedman, Cincinnati, and E. C. Williams of Illinois were severely injured. The two last named dangerously. The other passengers, the couch were torn and battered, and so much so that they passed out on the floor. Mr. Whitehead was reduced to his home and was last night lying in a critical condition. His injuries are principally internal and one rib is fractured.

# THE Newest Thing in Light

We invite every one in to see the newest thing in

## ELECTRIC LIGHT!

The Swan light, or the incandescent light. You will see by its aid more of everything in the way of

### Diamonds, Watches, Jewelry

AND

### Fancy Ornamental Goods

than you can see in the COMBINED stocks of Decatur.

You will see goods marked to sell (in many instances) at lower figures than the other stores paid for them.

You will see a line of particularly nice things suitable for

### Wedding, Birthday & Holiday Presents,

not to be seen elsewhere except in larger cities.

In fact it will pay you to come in and see this new light and the many other things we display.

### OTTO E. CURTIS & CO.,

LEADING JEWELERS OF ILLINOIS.

DECATUR, ILL.

### OUR OPENING --A Pronounced Success--

#### GOODS GREATLY ADMIRE

By Scores of Customers Large Sales and Numerous Orders, for which accept our Thanks. During the coming Fall and Winter Seasons we propose to give the Best Value on

#### Dry Goods, Cloaks, Millinery and Fancy Goods

Ever Shown. Examination respectfully solicited.
